TCI Bolt-in Product Features and Benefits:

The 62-67 Chevy Nova Coil Spring Front End has a cleaner looking style, easier installation, enhanced drivability, controlled handling and more.

- The Coil Spring is **40 lbs.** Lighter than a Stock Front End
- 1" Upper Tubular A-Arms with Urethane Bushings
- 1 1/2" Lower Tubular A-Arms with Urethane Bushings
- 10 1/2" Drilled & Slotted Zinc Plated Rotors
- Black Powder Coated Springs
- 1" Performance Anti-Roll Bar
- Big Bore Calipers
- (With 20% Better Clamping Force)
- Heavy duty upper and lower screw-in ball joints for additional strength & durability
- New upper mounting control arm brackets provides camber and caster control
- Engine mounts built for small block, big block and all LS engine applications
- New adjustable bolt-on down bars with easy adjustable heims
- New inner steel panels allow wider wheel and tire setup
