We are proud to offer frames and chassis for the popular '55-'59 Chevy pick-ups and classic '53-'56 Ford pick-ups. The frame features main rails expanded from 6" to 8" for increased rigidity and clearance between x-members while still retaining the original profile. We offer chassis heights designed for traditional cruising and fairground show-stoppers with the raised rear frame rail and air spring suspension. We offer a variety of choices to allow you to tailor a pick-up chassis to your needs. Custom IFS, Mustang II IFS, rear 4-link with coil-overs, leaf spring rear suspension and a wide variety of front or rear disc brake options. Air springs are available for front and rear.

**Kugel Complete 9" (IRS) Independent Rear Suspension System**, please call for pricing and available options.

**Kugel (IRS) Independent Rear Suspension System**
