## Important benefits to owning a Coil-Spring Front End from Total Cost Involved Engineering

**Coil-Spring Cross Member**  
Specially engineered for strength and durability  
Features:  
• Welded in-house for quality control  
• Laser & formed 2 piece main channel  
• 3/16 inch ASTM A-1011 pickled & oiled steel plate  
• 3/16 inch formed rack & pinion steering brackets  
• 1 1/2 inch lower crossmember mounting  
pins w/gusset.  
**NO Overseas Parts**

**Coil-Spring 2" Drop Spindle**  
Specially engineered for strength and durability  
Features:  
• CNC machined in-house  
• Two inch dropped spindle with steering arms  
• 4130 chrome moly steel spindle shaft  
• Holes tapered for heavy duty screw-in  
ball joints Factory bolt pattern

**Coil Spring Upper Control Arms**  
American made coil-spring upper control arms are specially engineered, machined and TIG welded for strength, durability and to bolt-on to your front end.  
Features:  
• 1 inch Tubular DOM Material (Strongest in the Market)  
• Greasable Urethane Bushing Not Rubber Bushings  
• Screw-In Ball Joints USA Made by OEM Supplier  
**NO Overseas Parts**

**Heavy Duty Coil Spring Lower Control Arms**  
American made heavy duty coil-spring lower control arms are specially engineered, machined and TIG welded for strength, durability and to bolt-on to your front end.  
Features:  
• All Engineering, Machining & Fabrication Done Inhouse  
• For the Highest Quality Control  
• Stamped Spring Pockets with Correct Spring Index and Correct Spring Angle  
• Energy Suspension **USA Made**  
• Urethane Bushings  
• Ball Joints USA Made by OEM Supplier  
• 1 1/2" DOM Material (Strongest in the Market)  
**NO Overseas Parts**

**Coil Springs & Shocks**  
Specially engineered for strength and durability  
Features:  
• Factory shocks come with bushings, hardware and are available painted blue or chrome
